

Insurance Requirement

Your organization is required to show evidence of active and adequate liability insurance in the form of an **endorsement** adding the three organizations listed below as additional insureds and deleting the watercraft exclusion on your policy for this activity. Please ask your broker to provide a certificate of Insurance and the required endorsement to the Forever Earth scheduler. These documents are required to hold your reservation. They must be received within one week from the day you and the scheduler select a date for your Forever Earth use. There is no exception to this request. If you find you cannot meet these requirements, please contact the Forever Earth scheduler immediately to withdraw your reservation.

Information for your Broker

Insurance Required:	Commercial General Liability	
	▪ Each Occurrence	\$1,000,000
	▪ Products/Completed Operations Aggregate	\$1,000,000
	▪ Personal and Advertising Injury	\$1,000,000
	▪ General Aggregate	\$1,000,000

Date of Activity: _____ (provide same date given to scheduler)

Location of Activity: Lake Mead National Recreation Area

Activity Description:

The Forever Earth Project is coordinated through a partnership of the University of Nevada Las Vegas, Fun Country Marine Industries, and Forever Resorts. At Lake Mead National Recreation Area (Nevada), participants will board Forever Earth, a 70-foot houseboat that is outfitted with water science testing supplies and monitoring equipment. The vessel will travel to various points on Lake Mead for hands-on data gathering exercises, observation, and/or discussion. Forever Earth departs from Callville Bay Marina (Box 100, HCR-30; Las Vegas NV 89124-9410).

Additional Insureds to be added to your Certificate of Insurance

Please include the following statement exactly as it appears:

Officers, employees and volunteers of the below named entities are insureds with respect to liability arising out of the activities by or on behalf of the named insureds in connection with work performed for Forever Earth.
